

# GLOBAL CITIZENSHIP - TRAVEL

Global Warming

- ▶ *Global warming means the earth is getting hotter*
- ▶ *It happens because of too much heat trapped in the air*
- ▶ *This heat is caused by gases like carbon dioxide*

# WHAT IS GLOBAL WARMING?

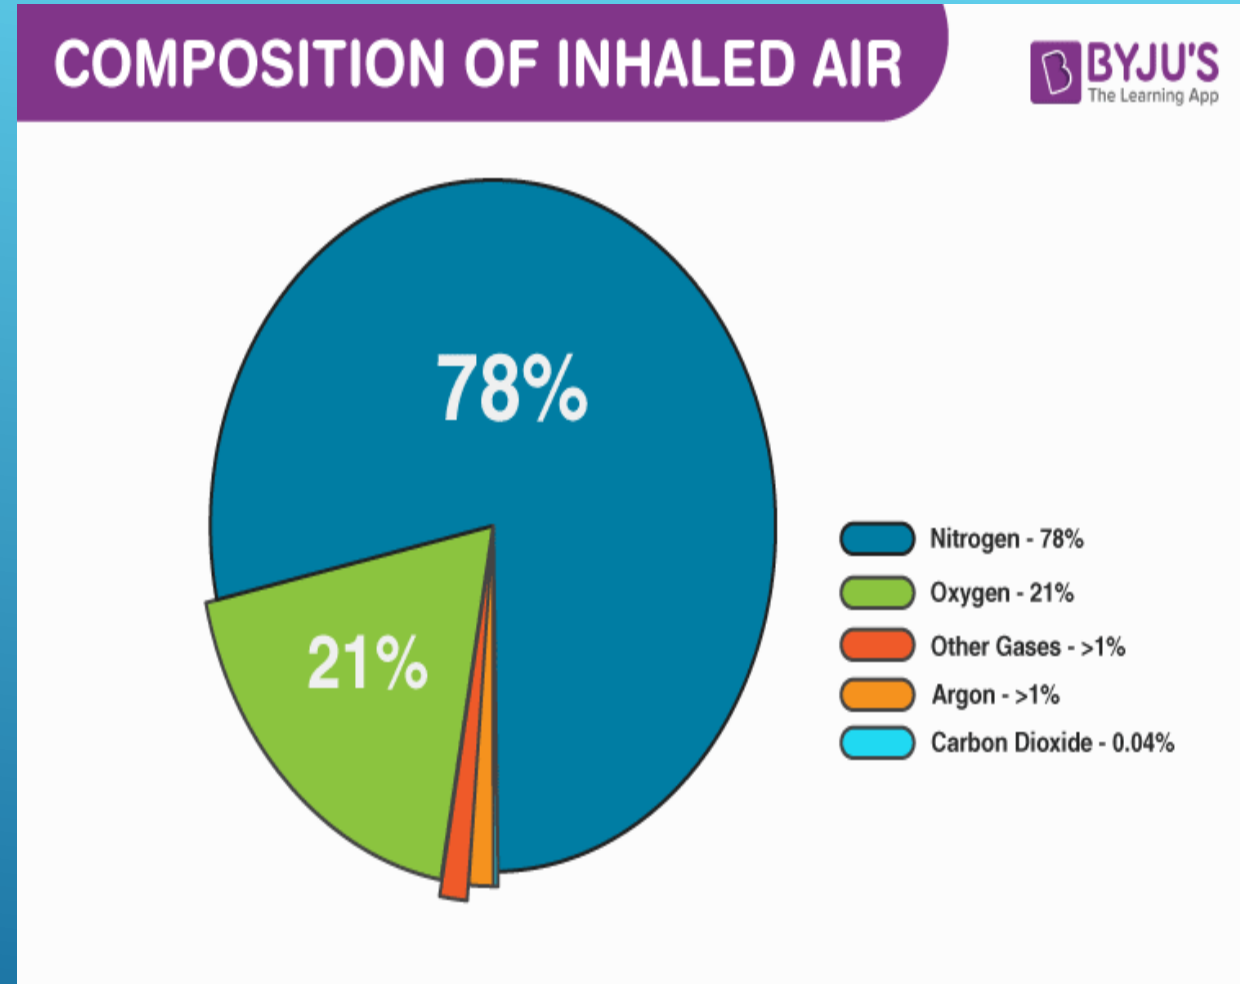

- ▶ Burning coal, petrol and diesel
- ▶ Factories and vehicles
- ▶ Cutting down trees
- ▶ Using too much electricity

# WHAT CAUSES GLOBAL WARMING?

- ▶ The sun gives heat to the earth
- ▶ Greenhouses gases trap heat
- ▶ Too much gases =too much heat
- ▶ This makes the earth warmer

## GREENHOUSE EFFECT

- ▶ Ice melts the north and south poles
- ▶ Sea level rises
- ▶ More floods and droughts
- ▶ Harm to animals and plants

## EFFECTS OF GLOBAL WARMING

- ▶ Hotter summers
- ▶ Less clean water
- ▶ Health problems
- ▶ Damage to homes and farms

## EFFECTS ON HUMANS

- ▶ Plant more trees
- ▶ Save electricity
- ▶ Use public transport
- ▶ Reduce Reuse Recycle

# HOW CAN WE STOP GLOBAL WARMING?

- ▶ Switch off lights
- ▶ Save water
- ▶ Use less plastic
- ▶ Spread awareness

# WHAT CAN STUDENTS DO?

- ▶ Earth is our only home
- ▶ We must protect it for the future
- ▶ Small steps can make a big difference

WHY SHOULD WE CARE?

# PROTECTING OUR PLANET STARTS WITH YOU

## BIKE MORE DRIVE LESS

## EDUCATE

When you further your own education, you can help others understand the importance and value of our natural resources.

## Volunteer!

Volunteer for cleanups in your community. You can get involved in protecting your watershed too!

## reduce REUSE recycle

Cut down on what you throw away. Follow the three "R's" to conserve natural resources and landfill space.

## CONSERVE WATER

The less water you use, the less runoff and wastewater that eventually end up in the ocean.

## choose sustainable

Learn how to make smart seafood choices at [www.FishWatch.gov](http://www.FishWatch.gov).

Buy less plastic and bring a reusable shopping bag.

## Long-lasting light bulbs - ARE A - BRIGHT IDEA

Energy efficient light bulbs reduce greenhouse gas emissions. Also flip the light switch off when you leave the room!

## Don't send chemicals into our waterways.

Choose nontoxic chemicals in the home and office.

## PLANT A TREE

Trees provide food and oxygen. They help save energy, clean the air, and help combat climate change.

▶ Save Earth Save life

▶ Any questions?

THANK YOU!
